Dear Mr. Friedman:

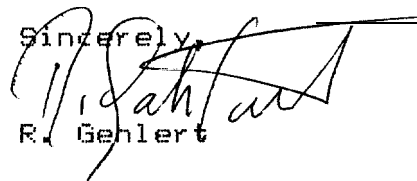

It is time to stop the beef industry from turning cows into cannibals.

The feeding of brains, spinal cords, and other animal tissue to herbivorous beef and dairy cattle has been linked to the spread of Mad Cow Disease (BSE).

Who is responsible for this abominable practice that is not only unnatural and deadly to the animals, but life-threatening and deadly to human consumers?

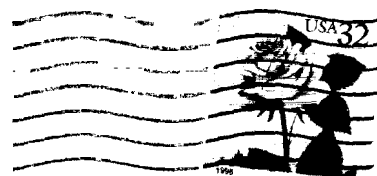

The American meat industry is unethical, immoral and cruel! Let the public beware!

Sincerely,

  
R. Gehlert
